Date: Feb 28th 2005

Subject: Compliance of Model AirMux

I would like to bring to your attention that the AirMux/WinLink system that was tested at Hermon Labs 02/2005 for FCC standards have four commercial models:

AirMux-200/F49
WinLink 1000/F49
FibAir 4849
MRL-500

Therefore User Manual for WinLink 1000 is valid for AirMux-200, FibAir 4849, MRL-500.
Please consider in reports and certifications.

Sincerely
Dan Weitzman
Professional Services Manager
