B. Access to the required information on the e-label

1. Users are able to access the information in no more than three steps in a device's menu. The actual steps are:

Starting from Main or Home Menu:

Step 1 – accessing "Settings"

Step 2 – access submenu "About phone"

Step 3 – access submenu "Legal information"

2. The information is stored on the device, no special accessories or supplemental plug-ins (e.g., a SIM/USIM card) are required to access the information.

Yes, users can see the information from the device, no support card required.

3. Users are provided specific instructions on how to access the information.

Users can get relevant information in the user manual

C. Labeling for Importation and Purchasing

1. Products utilizing e-labels are required to have a physical label on the product at the time of importation, marketing and sales. For devices imported in bulk and not packaged individually, a removable adhesive label or, for devices in protective bags, a label on the bags is acceptable for this purpose. Any removable label shall be of a type intended to survive normal shipping and handling and must only be removed by the customer after purchase. For devices imported already in individual packages ready for sale, the information may alternatively be provided on the package. It shall contain:

- i. The FCC ID and/or the SDoC logo (if applicable); and
- ii. Any other information required by specific rule to be provided on the surface of the product unless such information is permitted to be included in the User's manual or other packaging in certs.

The FCC ID and SDoC logo are present on the product packaging.
Model number is present on the device label.

D. Other considerations

1. The above information must be programmed by the responsible party and the information must be secured in such a manner that third-parties cannot modify it.

The e-label information is pre-programmed by the grantee. The user cannot modify the e-label information.

2. All the applicable regulatory information required on the packaging or user instructions must be provided according to the rules even if it is displayed electronically. For example, hearing aid compatibility (HAC) ratings for the phones as specified in 47 C.F.R. § 20.19.

Yes, it is provided.
