FCC Class II Permissive Change Request Letter

Date: July 29,2019

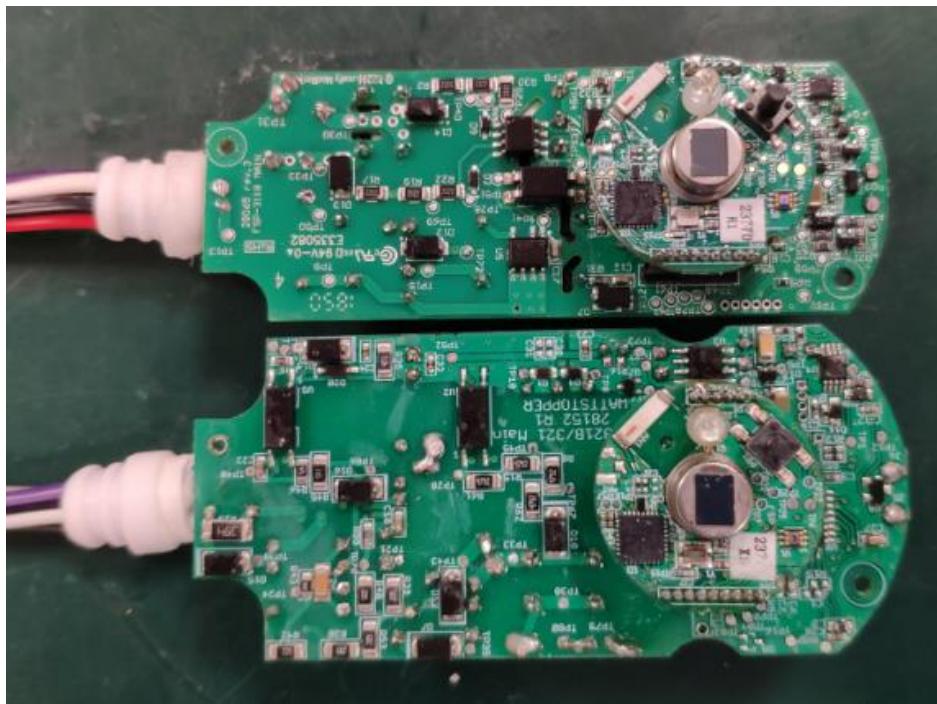

To FCC:

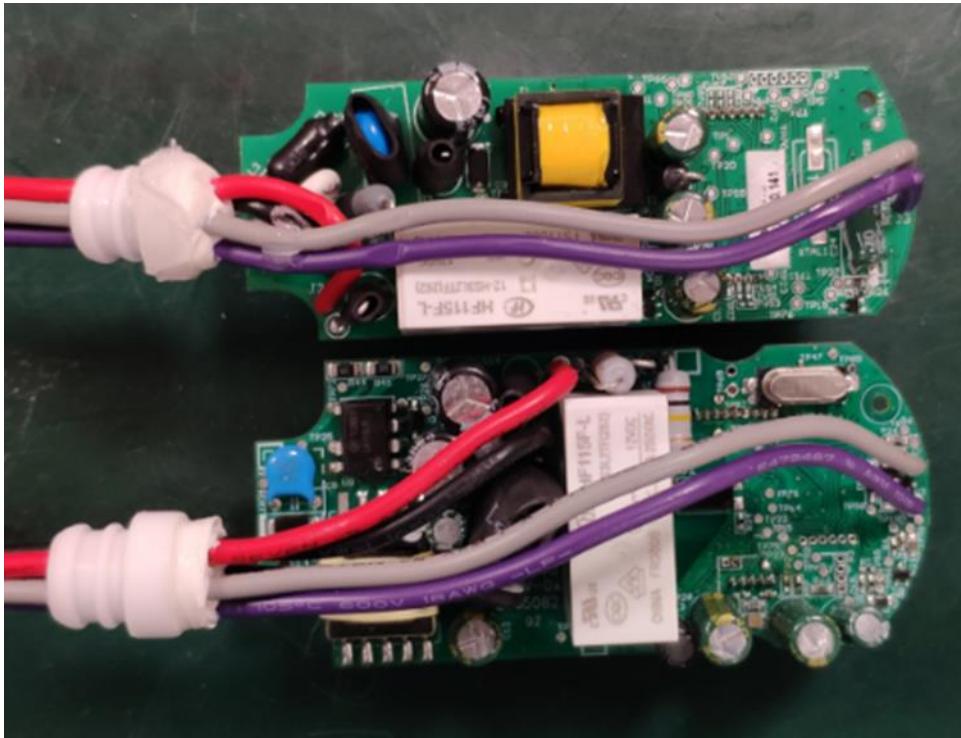

RE: FCC Permissive II Change Request for Company: The Watt Stopper, Inc. FCC ID: Q4B-FSP-3X1

We are submitting an application for a class II permissive change to the FCC approval of the Company name: The Watt Stopper, Inc. product description: PIR Fixture integrated sensor (FCC: Q4B-FSP-3X1, Original Grant Date: Apr.28,2017). The transmitter module itself has not changed. Here are the changes:

1. Change the design for AC to DC circuit;
2. Change the cross-zero sampling circuit;

Picture are show as below (above is new version, below is old version):

Sincerely,

Name: David Ayer

Title: Engineer, Electronic Sr.

Signature:

A handwritten signature in black ink that appears to read "David Ayer".
