DSJ-K9 Smart Device User Manual

Dear Customer

We are very grateful for your purchasing Kirisun DSJ-K9 smart device. We believe the product can bring great convenience to your work.

This smart device applies advanced technology and sophisticated techniques. We believe the quality and features can be satisfying to you.

Notice

- ◆ Please carefully read the user manual before using the product for your easy operation. We will consider that you have read this manual when you use the product.
- ◆ Please properly keep this manual for your future reference or for other users.
- ◆ Relevant intellectual property rights of all parts including accessories of the product belongs to us or its authorized parties. Any design or materials must not be copied, imitated, extracted or translated without our authorization or our authorized parties.
- ◆ Due to the update or modification of the product, we own the right to change the specifications of software and hardware described in this manual without further notice. Specifications and information contained in this manual are for reference only.
- ◆ All the words are carefully proofread but mistake may be inevitable. We reserve the rights to final interpretation.

Safety Precaution

To prevent damaging the device and to prevent injury to others or yourself, please carefully read the notice below before using the product and put these safety instructions within reach of others or yourself.

- ◆ Please do not try to disassemble or modify the product.
- ◆ Please do not use the product in the flammable or explosive atmosphere.
- ◆ Please do not place the product anywhere near the heating device or at the place of extremely abundant dust, damp or water splash. Pay attention to the notice below when charging with power adaptor:
 - ◆ Please use the power adaptor offered or sold by us.
 - ◆ Please keep the metal part of the power adaptor plug dry and clean. Failure to comply may lead to fire or electric shock.
 - ◆ Please do not use power adaptor in thunderstorm. Failure to comply may lead to electric shock.
 - ◆ Please do not try to damage, modify and repair the power adaptor, nor heat the BWC or place it anywhere near open fire.
 - ◆ Please use the USB cable offered or sold by us.
- ◆ Non-technician must not try to repair the product or its accessories

1 Unpacking

Please carefully open the package and check if the items listed below are included. Please contact your local dealer for anything lost or damaged.

1.1 Supplied Accessories

Item	Quantity
Smart Device	1
Power Adaptor	1
USB Cable	1
Belt Clip	1
User Manual	1
Certificate of Quality	1

1.2 Optional Accessories

Item	Quantity
Car Charger	1
Power Bank	1
Mounting Base	1
Bracket	1
Magnetic Charger	1

2 Introduction

3 Basic Operation

3.1 Power Key

Power On

Press and hold the Power key  to power on the device, and the login interface will be displayed. Enter a user name and a password, and then click Login. After login, the main interface will be displayed.

Screen On/Off

Press the Power key  to turn on/off the screen.

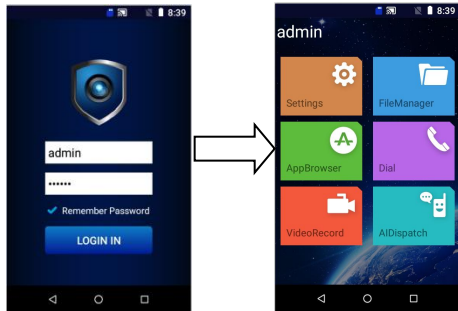

Power Off

To power off the device, press the Power key  and hold for 2 seconds, and then tap the screen as instructed.

Note:

The device has 2 sets multiple user management.

Normal user: The user name is ID1. The password is 123456 by default, which can be modified through the DSJ-K9 PC software. Maximum 5 user IDs (ID1, ID2, ID3, ID4 and ID5) can share this account. Different users have different passwords.

Administrator: The user name is admin. The password is 456789 by default, which can be reset through the DSJ-K9 PC software. After login with this account, the device time, administrator's and normal users' passwords, department name, department number, user name, device No., loop video, GPS on/off and group data can also be set through the software.

3.2 Touch Operation

Media Interface

3.3 Operation Indication

The green indicator glows after the device is powered on. The red indicator flashes once when a photo is taken, and keeps flashing when a video is taken. The yellow indicator keeps flashing during voice recording.

3.4 Charging Indication

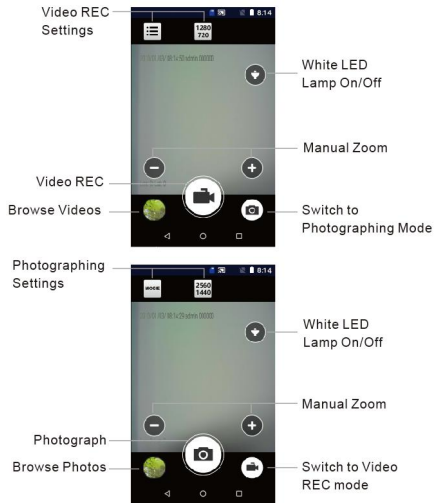

The red indicator glows during charging, and the green indicator glows after the battery is fully charged.

3.5 PTT Key

You can have talk and dispatch by logging in to the Smart Dispatching software and then holding down the PTT key. You can make an emergency call to an SOS contact by pressing the User Definable key and holding for seconds.

3.6 Video REC Switch

In preview mode, slide the Video REC switch  to one end to start recording video, and the red indicator light

keeps flashing during recording. To stop recording and save the video, press this key again.

Note:

During recording, you can mark the video as important by pressing the Audio REC key and holding for seconds.

In preview mode, you can set the followings.

Video Resolution: 1920*1080/1280*720/848*480 ppi

Video time: 5/10/30 min

Pre-Recording/Prolonged Recording: 3s/5s/10s/20s/30s/off.

3.7 Audio REC Key

In preview mode, press the Audio REC key  to start recording voice, and the yellow indicator light keeps flashing during recording. To stop recording and save the file, press the key ag

3.8 One-Shot/Multi-Shot Key

In preview mode, press the One-Shot/Multi-Shot key  to take and save a photo. The red indicator light flashes once.

In preview mode, you can set the followings.

Image Resolution: 2560*1440/3264*2448/3968*2976/ 4736*3552/6528*4896 ppi

Photographing Mode: One-shot

Quick Multi-Shot: 5/10/20 shots

Shooting Interval: 2/3/5/10/20/30s

Timed Shooting: 5/10/15/30s

3.9 **White LED Lamp**

In preview mode, you can have the white LED lamp icon displayed by tapping the Lamp On/Off drop-down menu as shown in the figure below.

3.10 **Mic**

The microphone is for sound collection during voice communication.

3.11 **Rotary Camera**

You can use the rotary camera to take a photo or video or have a video call.

3.12 **SIM Card**

The device supports a Nano-SIM card and six-mode 4G operation.

Supported Networks: 2G, 3G and 4G (TDD-LTE and FDD-LTE) networks.

3.13 **USB**

Plug in USB cable to exchange data between the device and a computer, or to charge the battery.

3.14 **Pogo Pin Connector**

You can charge the radio, or connect it to a PC or a USB camera via the pogo pin connector.

3.15 **Speaker**

The speaker outputs sound when you play an audio or a video file.

3.16 **Display Screen**

The device applies a 3.1" HD touch screen, on which you can play back image, audio and video files and perform touch operation.

3.17 **File Playback**

You can play back an audio or video file by tapping the File Playback icon or a shortcut key in preview mode.

3.18 Settings

Network Settings: Wi-Fi, GPS positioning, Bluetooth, mobile data, BT shoulder lamp, NFC and APN.

Device Settings: Brightness, power saving mode, alarm clock, sound, SOS contact, data acquisition, voice announcement, operation indicator and loop video.

System Settings: System info, date and time, language and screen on/off.

3.19 GPS/BDS Positioning

The built-in GPS/BDS modules realize global positioning, location reporting and track playback.

Note:

To

Location reporting and track playback is achieved by the device together with the Smart Dispatching software.

You may view the location and track of the device on the dispatching management platform.

3.20 Replacing the Battery

To replace the battery, move the battery latch in the direction as indicated in ① below, and then pull the Latch handle upwards to open the battery cover.

4 Troubleshooting

Failure	Diagnosis	Solution
Power-on failure	Low Battery	Charge it for 4 hours.
	Damaged Power key	Please obtain service from our authorized maintenance station in your region or contact us.
The computer cannot identify device	Not logged in to the PC software	After connecting the device to a PC using the USB cable, please enter the password at the PC software to log in.
	Bad data cable	Change the data cable.
	USB driver installed improperly	Install the USB driver again.
Files cannot be deleted	Insufficient account permission	Under normal user account, only file reading is allowed. To modify or delete files, please log in with the administrator account.

5 Maintenance and Cleaning

The device adapts to harsh environments, but the operation standards and maintenance should be complied with daily use to achieve its optimal performance.

◆ Carefully protect the lens, all the moveable parts and screen as they are inclined to damage due to the material and structure design requirements. Do not handle with force or press it. Prevent glass scratch if the display screen is damaged and prevent the liquid of the screen touching the skin, eyes or mouth.

◆ Battery

Please check the battery level before taking the product out in the field and charge it before hand if necessary.

Stop the charging once the battery is full or the battery performance will be affected.

◆ Cleaning

Lens: The lens and glass are vulnerable, so try to keep your hands off them. You can use balloon blow to remove dust or lint. For stains which cannot be removed. You can use a clean soft cloth to wipe the lens outwards from its center.

Display Screen: For removing fingerprints or other stains, please use a soft dry cloth to wipe the screen gently.

Body: Use balloon blow to remove dust or dirt and use a soft dry cloth to clean it.

◆Storage

For long storage of the product, please turn it off before storage. Keep the product away from the followings.

- ◎ Devices which possibly generate strong magnetic field
- ◎ Environment with a temperature of $-10\text{ }^{\circ}\text{C}$ or above $50\text{ }^{\circ}\text{C}$
- ◎ Damp places with poor ventilation
- ◎ To prevent battery deterioration, take down, charge and use the battery before storing it again.

RED statement

1. Use careful with the earphone maybe possible excessive sound pressure from earphones and headphones can cause hearing loss.

2. Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.
3. The product shall only be connected to a USB interface of version 2.0 or higher.
4. Adapter shall be installed near the equipment and shall be easily accessible.
5. The operating temperature of the EUT can't exceed 40°C and shouldn't be lower than 0°C.
6. The plug considered as disconnect device of adapter.
7. The device complies with RF specifications when the device used at 25mm from front of your face ,5mm from your body and 0mm from your body with back splint.

Hereby, Kirisun Communication Co.,Ltd. declares that this Mobile phone product is in compliance with essential requirements and other relevant provisions of Directive 2014/53/EU. This product is allowed to be used in all EU member states.

FCC Statement

15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. **Device is not restricted to use by only law enforcement agencies, device is also for other civil industries use.**

15.105 Information to user.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information:

This product meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. This device was tested for typical body-worn operations with the back of the handset kept 25mm from front of face, 0mm from the body with belt-clips and 10mm without belt-clips. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm from the body with belt-clips and 10mm without belt-clips for body worn must be maintained between the user's body, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

IC statement

IC STATEMENT

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The information listed above provides the user with information needed to make him or her aware of a RF exposure, and what to do to assure that this radio operates within the exposure limits.

The device complies with RF specifications when the device used at 25mm from front of face, 0mm from the body with belt-clips and 10mm without belt-clips.. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided.
