RE: K&B International Limited

FCC ID: Q5K12607T

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Confidentiality has not been requested on any exhibits (i.e. block diagram/schematics) that most applications typically do ask for confidentiality on. Please confirm that confidentiality is not required for any exhibits or alternatively please provide a confidentiality letter to cover exhibits which may be deemed proprietary. Please let us know if you need further guidance on this issue.
- 2) Please provide information to support the RBW and VBW settings used for various frequencies measured (i.e. < 30 MHz, > 30 MHz).
- 3) In the users manual, the FCC information makes mention of a "truck". This appears incorrect. Please review/correct as necessary.
- 4) FYI.....Please note that although we accept jpg images, the preferred file type is still considered pdf documents. This decreases processing time, files sizes, viewing problems, and problems with uploads to the FCC site. In the future, please consider provided images in pdf files.
- 5) FYI.....Please upload the occupied bandwidth and duty cycle plots as a test report exhibit in the future.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
