Model Number Clarification

Dear Sir Madame:

I am writing to clarify the model numbering of the above stated device.

The model number of the device submitted for regulatory approval is '9523N' which will have FCC ID Q639523N and IC ID 4629A-9523N.

The model number '9523' referenced in the 'Iridium Core 9523/9523N Product Developer's Guide' refers to a previous model of the device with the FCC ID Q639523 and IC ID 4629A-9523.

The label '9523NF' which is used in the 9523N schematics and bill-of-materials refers to the '9523N' (FCC ID Q639523N and IC ID 4629A-9523N); this was a term used in the product development phase and has now be changed to '9523N'.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "Hermon Pon".
