29 3G NETWORK

First of all, you need to buy 3G wireless network card according to China Telecom, China Mobile or China Unicom. For the currently supported 3G card type, please refer to **3G dongle support list** or **appendix**.

We strongly recommend to buy the USB 3G Dongle in order to ensure normal 3G Internet access. Please put the prepaid card into the USB 3G Dongle, insert the USB 3G Dongle into the USB host transfer cable and then insert OTG interface. It will be bright lights on the USB 3G Dongle, which indicate that it could begin to connect the 3G network.

Tap **Settings** → **3G network**, And tap “**Add 3G network**”, in the popup dialog box, Fill the **name**, **Device number**, **APN**, **user** and **password** information.

Name: In the popup dialog box, Name field enter

the name.

Device number and APN: Please fill in the information provided by operating agencies. (As in China: If you use China Unicom and China Mobile's 3G network card, **device number** field need to fill in “*99#”, **APN** need to fill in the “cmnet”; if China Telecom formats 3G on the card, phone number need to fill in the column “T#777”, **APN** do not need to fill in the name of column.)

User and Password: If you use the standard of China Unicom and China Mobile's 3G network card, user and password fields are free to fill or not fill; if you use the standard of China Telecom's 3G network card, **user and password** fields need to fill in(**user**: card, **password**: card).

Note: If it does not work properly for entering the above user and password. Please try to fill in (**user**: ctnet@mycdma, **password**: vnet.mobi) or (**user**: ctnet,

password: vnet.mobi), also you can ask to China

Telecom.

Click the connect after finishing filling, then you will see the 3G symbol  appearing at the bottom

of status bar , indicating the 3G network is connected, and then you can get online.

30 GPS

GPS functionality requires the use of a USB interface external GPS receiver. (It access to device via the USB host transfer cable). Users need to download the navigation software and map from the internet, through the SD card installation (please refer to the Application Management section of this User Guide).

For the currently supported GPS receiver type, please refer to Appendix.

31 PPPoE SETTINGS

Before using this feature, connect the USB network card via the USB host transfer cable access to device.

1. Tap **Settings** → **PPPoE settings** .
2. Input name and password then click connect to access the broadband network.

32 ETHERNET

Before using this feature, connect the USB network card via the USB host transfer cable access to device.

When the USB network cable plugged into the USB network card, you will see the bottom of status bar ETH

symbol  appears

1. Tap **Settings** → **Ethernet**.
2. The device can automatically obtain IP address to connect to the network. You can also choose to

manually set the IP address to get connected.

FREQUENTLY ASKED QUESTIONS

Android

Q: What Android OS version is on my Device?

A: 4.0.3

Basic Device Functionary

Q: Do I have to charge the battery before use?

A: You should charge the battery for at least 6 hours, but you can use the device while it's charging. Use the included power adapter to charge; this device does not support charging via the USB cable.

Email

Q: Can I use any of my personal email addresses to send/receive email?

A: The device supports POP3 and SMTP accounts.

Some free email accounts are not supported on mobile devices. Check with your email provider to see if your account is supported.

Media Cards

Q: Which media cards are compatible with my Device?

A: micro SD cards.

Music

Q: What type of music files can I play on my device?

A: MP2, MP3, WAV, ,FLAC,APE,AAC, WMA

Q: How do I add music files to my device?

A: Copy the music files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

Photos

Q: What type of photo files can I view on my device?

A: JPG, JPEG, BMP and PNG.

Q: How do I add photo files to my device?

A: Copy the photo files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

Video

Q: What type of video files can I play on my device?

A: Video file formats supported: MPEG1/2/4、H263、H264、VC1、RealVideo、MotionJPEG.. The largest video format is supported 1080P(1920×1080) resolution.

Q: How do I add video files to my device?

A: Copy the video files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

Wi-Fi

Q: Do I need a Wi-Fi adapter to connect to the Internet?

A: No. The Wi-Fi adapter is built-in to the device.

Note:Inconsistent with the physical specifications, please prevail in kind.

BATTERY MANAGEMENT

The battery is not fully charged when you use the device first time, so it is recommended that you charge the battery for at least 6 hours before you use the device. The rechargeable battery is designed and manufactured to be used and recharged frequently. As with all batteries, the capacity of the battery reduces each time it is charged/depleted. However, you can still try to prolong the battery's lifetime by the suggestions as below:

- Use your tablet at least once a week.
- Charge the battery regularly and fully.
- Never leave the battery fully discharged for a long period of time.
- Always keep the device and the battery away from heat.

Charge battery

Plug the power adapter into an electrical wall outlet, and then connect to the device to fully charge the

battery before use (A full charge takes about 6 hours in the status of "off").

★ *You cannot charge the battery using the USB cable.*

When fully charged, the battery icon displays as .

A fully discharged battery takes approximately 6 hours to fully charge in the status of "off", but you can use the device while plugged in when desired.

IMPORTANT SAFETY PRECAUTIONS

Always follow these basic safety precautions when using your tablet. This will reduce the risk of fire, electric shock, and injury.

- Do not expose this product to rain or moisture.
- Keep the device out of direct sunlight and heat sources.
- Protect the power cord. Avoid being stepped on or don't put object on the power cord when make charging.

Pay more attention to the point where the cord attaches to the device.

- Please use the AC adapter included in the device packaging. Using any other power adapter voids your warranty.
- Do not unassemble the device by yourself. Any damaged by your own is out of warranty.

Cleaning your device

Treat the screen gently. Please use soft, non-abrasive cloth such as a camera lens cloth to clean fingerprints or dust on the screen.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the

user's authority to operate the equipment

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following

-- Reorient or relocate the receiving antenna. -- Increase

the separation between the equipment and receiver. --

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without RF striction.
