

986 Motorcycle Alarm System

Description and Specification

Function description:

- 1☐ Remote engine start
- 2☐ Waterproof control box
- 3☐ Remote control arming/disarming
- 4☐ Engine immobilization
- 5☐ Remote Engine flameout
- 6☐ Anti-jamming
- 7☐ Locating with sound and light
- 8☐ Auto re-arming
- 9☐ Alarm disarmed warning
- 10☐ Anti-hijacking
- 11☐ Code learning

Technical Information:

1. Main Unit

Voltage: 12V±2V

Frequency: 433.92MHz

Static Current: <5mA

Current(max): 10A

Direction light: 5A

2. Remote Controller

Voltage: 6~12V

Frequency: 433.92MHz

Static Current: 0mA

Power: <10mA

3. Siren Volume: 110~120DB
