Hi Eric,

6/27/2007

I have reviewed your documents in response to my June 3 RT.

1.) The clarification letter does not help. Simon Au can say that MK Leung can act for Chung Nam Electronics, not the other way around. It is like my going to the FCC website and finding the Grantee code for Microsoft, and then claiming that I authorize Bill Gates to sign documents. Authority must originate with the contact window at FCC website.

<Aven> The contact window listed with FCC was changed to Simon Au, who is signing the confidentiality and POA.

2.) Your block diagram is still not detailed enough. What is inside the "WLAN Transceiver UW2453"? We need a block diagram of the portion that creates, modulates and amplifies the RF signal.

<Aven> We has told our client to provide again.

3.) Where is my answer to item #4 from my June 3 letter?

<Aven> The product was tested in our Linkou lab in Taiwan for the DoC report.

4.) Where is my answer to item #5?

<Aven> Please see the update report in P58-59

5.) Where is my answer to item #6?

<Aven> Please see the update report in P6

6.) Where is the answer to item #8?

<Aven> Please see the update report in P25-30

Bill
