RE: ATCB005419

FCC ID: Q72WLANTUBGS

I have a few comments on this application. Depending on your responses, kindly understand there may be additional comments.

1. The user manual is required to put information to user according to FCC 15.21 rule part. Below please see the FCC 15.21 for your reference.

“Section 15.21 Information to user:

The user's manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.”

2. Modular approval is only allowed for mobile device which operating distance away from body is greater than 20cm. The FCC RF Radiation Exposure Statement on your manual did not show the messages that the antenna used for this transmitter must be installed to provide a separation distance of at least 20cm from all persons.

Please revise the user manual with required statements.

The following statement is for your reference:

“To comply with FCC RF exposure compliance requirements, the antenna used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter”.

3. “FYI – This is for your information only and does not require a response to ATCB. Please note that a DoC can only be applied to certain types of equipment as specified in 15.101 of the FCC rules. Please note that a DoC report may only be done by a properly accredited test lab in a country that has a current and active MRA with the US. Please note that the applicability of the DoC and its proper use on an FCC label is the responsibility of the grantee. ATCB recommends that the applicant address all associated DoC labeling issues and that such DoC labeling be strictly in accordance with the following: 47CFR 2.906, 2.803, 2.901, 2.906, 2.909, 2.948, 2.1071 through 2.1077, 15.19, 15.25, 15.31, 15.37, 15.101, 15.102 and any other DoC requirements not specified above.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application

termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
