**Overall Assessment Letter for ZTE-C C366
FCC id: Q78-ZTE-CC366**

I have reviewed this application and find it compliant. This is an application for a handset which supports CDMA 1X 800MHz.

As a result of the assessment review an updated parts lists was obtained as the original exhibit was partially in Chinese. The SAR report was requested to be updated to include the appropriate FCC specifications, the exhibit was subsequently received.

I underwent RF Exposure training with the FCC at the October 2008 FCC TCB Workshop.

Yours sincerely

A handwritten signature in blue ink, consisting of several fluid, overlapping strokes that form a cursive-like shape.
