

Response to TCB Findings

1. Requirements of 15.207 are applicable to the host. Please provide data demonstrating compliance to AC line conducted emissions.
[See additional test data](#)
2. Has the device complied with the requirements of 15.31(e)?
[The fundamental did not vary when the line voltage was varied as per 5.31\(e\).](#)
3. Up to what frequency has the testing been done
[The EUT was searched up to the 10th harmonic of the fundamental](#)
4. Please clarify if the loop antenna has been rotated about the horizontal and vertical axis.
[The RX antenna was rotated \(horizontal and vertical\).](#)
