

Operation Description

The digital audio player is a stand-alone multi-function product and is powered by one 1.5 V AA size battery with built-in 128 MB memory and a Secure Digital (SD) card slot. Controlled by a crystal operating at 24 MHz, the digital audio player has two features:

- 1 Music player (supports MP3, WMA and WAV file formats)
- 2 USB interface for uploading and downloading files and as mass storage through a USB connection cable
