Dear Helen,

I always thank you for your help.

I've Here is the answer of the issue.

Question #1: Please submit an Agency Authorization Letter in attached format. Please ask your client to sign on the new letter format. Please do not indicate FCC ID or IC certification number on the letter, so that you can use one letter for one applicant for many applications.

? Attached please find "Example of Authorization Letter\_AVC.pdf"

Question #2: The block diagram is not clear enough, it does not show oscillator/crystal frequencies. Please resubmit Block diagram.

? Attached please find "Visio - SN\_M500\_Block Diagram.pdf"

Question #3: The user manual does not contain user information as specified in FCC15.21. Please update the user manual.

? Attached please find "SN - M500 Manual.pdf"

Please contact me if it has a problem.

Thanks & Best Regards

CHA
