Adding DFS Bands for SDR Certified UNII Device

Date: May 21, 2014

**Federal Communications Commission
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, MD 21046**

Attn: OET Dept.

**Product / Model No: APIN0204; APIN0205
FCC ID: Q9DAPIN0204205**

Regarding Class III Permissive Change Application to add DFS Bands

We would like to add operation in 5250-5350MHz and 5470-5725MHz UNII DFS bands to our existing FCC Grant.

There is no hardware changes implemented on the device, only via Aruba Networks controlled software new DFS bands will be enabled. Details on how ArubaOS implement and control security in order to prevent specifying/changing radio parameters that would violate FCC Grant are described in submitted Security Description for SDR Application document.

Sincerely,

A handwritten signature in black ink that reads "Greg Rocha". The signature is written in a cursive style with a horizontal line underneath it.
