7435 Oakland Mills Road Columbia, MD 21046

Attention: OET Dept.

FCC ID: Q9DAPIN0314315

Regarding Class III Permissive Change Application to add DFS Bands

We would like to add operation in 5250-5350 and 5470 - 5750 MHz UNII DFS bands to our existing FCC Grant. There are no hardware changes implemented on this device, only via Aruba Networks controlled Software new DFS bands will be enabled. Details on how ArubaOS implement and control security in order to prevent specifying/changing radio parameters that would violate FCC Grant are described in submitted Security Description for SDR Application document.

Firmware Version used for APIN0314/APIN0315 for the original certification is: ArubaOS 6.5.0.0 Build: 54293.

Firmware Version used for APIN0314/APIN0315 for the original certification is: ArubaOS 6.5.0.0 Build: 55049.

This permissive change application is the first permissive change filed since the original approval issued 05/20/2016

Sincerely,

Name:	Robert Hastings
Company:	Aruba Networks
Title:	Regulatory Compliance Manager
Date:	06/08/2016
