Picture 4

The image shows a technical setup in an anechoic chamber. A white, rectangular antenna is mounted on a wooden table. It is connected to a white electronic device with a speaker grille and a small lens. A yellow LED indicator is lit on the device. A black antenna cable is connected to the device. A small horn antenna is positioned above the main device. The background is a dark wall with white pyramidal absorbers. A white sign in the foreground contains the text 'TUVR24-A2/3'.

TUVR24-A2/3
