Subject FW: audit

I attempted to answer this online but Joyce tells me that this should have originally gone to you.

Here are my answers:

- 1) I am including another copy of the operation description
- 2) Our two identical radios will not both be operating in the same spectrum at the same time ie, if one is on .b/.g the other will either be in .a or it will be off.

Thanks,

Let me know if you need anything else
