

Identification Label -- Pursuant to 47 CFR 2.925 and 2.1033(c)(11)

1.1 Location

On the rear (back) side of the radio product chassis, (see also External Photos).

1.2 Type

The label is of a white polyester film laminate with a pressure sensitive adhesive backing. The adhesive is a permanent type acrylic with minimum peel strength of 5 lbs/in.

1.3 Markings (Text)

The FCC label shown is representative of the label that will appear on the product packaging as well as in the Installation Guide when in production.

Figure 1.3.1. Representation of FCC Label information.

This label will be placed on the product packaging as well as in the IG. Other information may also be included on this label, and other labels may also be present.

Please note that this label and its placement complies with the requirement of FCC Rule 47 CFR 2.925(d), and FCC KDB#784748. Since the device is unquestionably too small for the FCC ID to be readable (smaller than 4-6 points), the FCC ID will be placed in the user manual as well as on packaging.

The product's Market or Trade Name is indelibly printed on the face of the product packing as well as the Installation Guide.
