

Date: May 25, 2016

FCC ID: Q9DMSR4000DFS

To whom it may concern:

Aruba Networks is filing for a permissive change to update to the rules specified in FCC Docket No. 13-49 as modified by MO&O 16-24.

We are applying under 15.407 (b)(4)(ii) for operation in the 5725-5850MHz band, as allowed by KDB 926956 D01 U-NII Transition Plan v01r06.

We declare that the above-identified equipment has had no hardware changes or changes in output power and that all emissions comply with 15.247(d) for all antenna configurations listed below:

Model	Gain (dBi)	Frequency Range (MHz)
ANT-2x2-5005	5	4900 - 5875
ANT-2x2-5010	10	4900 - 5875
ANT-2x2-5314	14	4900 - 6000
ANT-3x3-5712	11.5	4900 - 6000
ANT-3x3-D608	7.5	4900 - 6000
ANT-3x3-D100	5	4900 - 6000

Note: Aruba Networks declares the Antenna's listed in the Original Filing have been replaced with those listed above. The Antenna Gain's listed above are similar or lower than those declared in the original grant.

Regards;

Robert Hastings
