Hi Helen,

Please refer to the attached for revised test report.  
(See attached file: Gg03 Test Rpt revised 1026.pdf)  
Thank you in advance for your assistance.  
BR,  
Ting

AN04T4246, Notice#1

Question #1: The user manual indicates that the charging cradle is designed to charge the headset either by AC/DC adaptor or USB cable (through PC). But the test report shows the powerline conducted emission test was done with USB cable (through PC) only. Please provide additional test data with AC/DC adapter.

Best regards,  
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in

application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
