RE: SendFar Technology Co., Ltd.

FCC ID: QA5-OAP-04003

After a review of the submitted information, I have a few comments on the above referenced Application.

Administrative Issues:

- 1) FYI...Page 23 of the users manual state the antenna connectors are SMA, while the device actually contains Reverse N. This should be changed.
- 2) FYI...Page 23 of the users manual mentions the FCC EIRP output power is 24 dBm. The information in the application supports 28 dBm EIRP. This should also be changed.
