RE: SendFar Technology Co., Ltd.

FCC ID: QA5-ORB-02001

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) FYI, the DoC is actually required because the DoC authorization applies to the device as a PC Peripheral, not as a receiver. Note that the scope of Part 15 only applies to receivers between 30-960 MHz.
- 2) Please provide information regarding the PCMCIA card integrated into this device. For instance, what is the manufacturer, model, FCC ID # (if applicable), etc.
- 3) Is the PCMCIA card unmodified/modified from the original approval (if applicable) or is this a special version being used strictly for this purpose? Please explain what the changes are that were made. Note that an external antenna is being used, but the device still appears to contain 2 internal antennas.
- 4) Please confirm that the schematics provided are for the PCMCIA card used, including any modifications made for inclusion into this device.
- 5) Are test photographs available for both Radiated test configurations?
- 6) The RF output specified in the users manual is 24 dBm, while the measured value was 18.6 dBm. Please comment and correct all affected exhibits.
- 7) The users manual states that the connector is an SMA., while the device does not appear to contain any SMA connectors. Please comment and correct any affected exhibits.
- 8) The users manual does not appear to contain the information specified by 15.21.
- 9) The limits for 2680 MHz given on page 29 should be 54/74 dBuV as they fall in a restricted band. Please correct.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
