Dear Alan

**FCC/TCB original application - Promethean Ltd PRM-AB2-02 / TDS-AB2-02 ACTIVboard plus family derivatives.  
FCC id QAM002**

The application is for an interactive electronic whiteboard (computer peripheral) which incorporates a 915MHz SRD transceiver to enable student interaction using wireless drawing and voting devices.

The ACTIVboard that has been tested is Promethean's largest size (78" diagonal). They also offer smaller versions (60" diagonal). Aside from the mechanical dimensions, the board is electronically and mechanically identical in build. The smaller board has a modified product code which indicates the smaller size. Promethean also have different product codes to indicate a Primary School version. This simply has a different plastic colour scheme and adds a 'P' to the product code. This application is to cover the family derivatives and they are explained in the following codes:

PRM-AB2-02 Standard 915MHz build (78" size) without Bluetooth option  
PRM-AB2P-02 Primary School colour scheme 915MHz (78" size) without Bluetooth option

Then the size derivatives alter the product code as follows:

60" board

PRM-AB260-02 Standard 915MHz build (60" size) without Bluetooth option  
PRM-AB260P-02 Primary school colour scheme 915MHz (60" size) without Bluetooth option

48" board

PRM-AB248-02 Standard 915MHz build (48" size) without Bluetooth option  
PRM-AB248P-02 Primary school colour scheme 915MHz (48" size) without Bluetooth option

The boards are also marketed under the brandname 'TDS'. The only change is to the code as follows:

TDS-AB2-02 Standard 915MHz build (78" size) without Bluetooth option  
TDS-AB2P-02 Primary School colour scheme 915MHz (78" size) without Bluetooth option  
TDS-AB260-02 Standard 915MHz build (60" size) without Bluetooth option  
TDS-AB260P-02 Primary school colour scheme 915MHz (60" size) without Bluetooth option  
TDS-AB248-02 Standard 915MHz build (48" size) without Bluetooth option  
TDS-AB248P-02 Primary school colour scheme 915MHz (48" size) without Bluetooth option

The transmitters are electrically identical for all versions.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Phil Dolling', with a stylized flourish at the end.
