Steve Dayhoff
FCC Applications Processing Branch

Reference FCC ID: QAX-VPN350

Dear Mr. Dayhoff:

This correspondence is in response to your comment within FCC Correspondence Reference Number 24750 and 731 Confirmation Number EA257798.

A.C line conducted data is not required for the following reason:

The CISCO PCMCIA card is powered by the host CISCO Access Point Device. The Access Point Device is in turn powered through the Ethernet interface. This is referenced on Page 14 of the Access Point Hardware Manual.

If you need any further information or have questions about the information I have provided please give me a call at (781) 939-4375 or e-mail at dinman@parker.com.

Sincerely;

David C. Inman
Manager, Chomerics Test Services
