

Operational Description

I . Installation

Configuring a Computer Connected to the USB Port

Corecess 3115's USB port to connect to a PC, you must install the provided USB driver Software on the PC. The driver enables Ethernet-over-USB communication with the Corecess 3115.

1. Turn on the PC connected with the Corecess 3115.
2. Once the Corecess 3115 is connected to the PC, the Windows plug-and-play routine will detect the new device and show the <Found New Hardware Wizard>. Click Next.
3. Two choices appear. Choose Search for a suitable driver for my device(recommended) and click Next to go to the next wizard panel.
4. The wizard prompts you to specify a location to search for the driver you are installing. After inserting the installation driver CD into the CD-ROM drive, click CD-ROM drives and click Next.
5. The wizard shows a verification panel and displays the choice you made(USB NET CARD). Click Next to start the installation of the drives and connection to the ADSL modem over the USB.
6. The system finds the drives and begins to automatically copy the driver files from the CD.
7. When the driver installation is complete, click Finish.
