Description of Operation

The EUT is a <u>Wireless Smart Plug</u> with <u>IEEE 802.11b/g/n (1T1R)</u>. And this device provided of transmitting speed:

IEEE 802.11b: 11, 5.5, 2, 1 Mbps

IEEE 802.11g: 54, 48, 36, 24, 18, 12, 9, 6 Mbps

<u>IEEE 802.11n HT20: 72.2, 65, 57.8, 43.3, 28.9, 21.7, 14.4, 13, 7.2, 6.5 Mbps</u>

<u>IEEE 802.11n HT40: 150, 135, 120.9, 90, 60, 45, 30, 27, 15, 13 Mbps</u>

the device of RF carrier is CCK, DQPSK, DBPSK, 64QAM, 16QAM, QPSK and BPSK.

The device adapts <u>DSSS</u> and <u>OFDM</u> modulation. And the antenna is one <u>PCB</u>

<u>Antennas(1T1R)</u> and provided diversity function to improve the receiving function. It allows your computer to connect to a wireless network and to share resources, such as files or printers without being bound to the network wires.

And this EUT Operation in 2.4GHz <u>Direct Sequence Spread Spectrum (D.S.S.S) and Orthogonal Frequency division Multiplex (O.F.D.M)</u> radio transmission.

In addition, its standard compliance ensures that it can communicate with any <u>802.11b/g/n</u> network.

The other instruction, please have a look at the user's manual.
