Columbia, MD 21046

Subject: Justification for requesting internal photos confidentiality

Applicant: Redline Communications Inc.  
Model: RDL-3000-RME  
FCC ID: QC8-RDL3000RME2

Dear Sir / Madam,

Redline Communications Inc. would like to request that internal photos are held confidential and not available to public viewing. This submission is for limited single modular approval therefore the external and internal photos are the same.

The RDL-3000-RME is limited single modular transmitter that will not be distributed, marketed or sold to the general public and Redline will not make this module available as standalone product. It will be installed in the devices /enclosures produced by Redline Communications Inc. and its authorized partners. It is only serviceable by Redline Communications or its designated technicians.

The final product containing RDL-3000-RME module will be sold to customers for highly confidential and secure industrial, military and public safety applications. We feel that this information is considered as sensitive and creates a vulnerability to customers deploying this product.

This request for confidentiality is made under the provisions of Section 0.457(d) of the Commission's Rules, and Section 552(b)(4) of the Freedom of Information Act. These sections authorize withholding from public inspection materials which would be privileged as a matter of law if retained by the person submitting them, and materials which would not customarily be released to the public by that person.

Sincerely,

Rod Cronin  
VP of Product Management and Integration
