Subject: Limited Modular Approval Letter, FCC ID: QCI-CRXMOD1

Dear Application Examiner:

SMART Technologies Inc. is seeking limited modular approval for SMART CRX Pen BLE radio module **Model: CRXMOD1, FCC ID: QCI-CRXMOD1**. The radio meets the requirements for limited modular approval as detailed in FCC 15.212(b). Compliance to each of the requirements is described below:

Item	FCC 15.212 Requirement	Y/N	Comments
1	The radio elements of the modular transmitter must have their own shielding.	N	The radio module does not include its own shielding.
2	The modular transmitter must have buffered modulation/data inputs (if such inputs are provided) to ensure that the module will comply with part 15 requirements under conditions of excessive data rates or over-modulation.	Y	The radio module utilizes buffered modulation/data inputs.
3	The modular transmitter must have its own power supply regulation.	Y	The radio module includes its own power supply regulation.
4	The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c).	Y	The radio module complies with the antenna and transmission system requirements.
5	The modular transmitter must be tested in a stand-alone configuration, <i>i.e.</i> , the module must not be inside another device during testing for compliance with part 15 requirements.	Y	The radio module has been tested in a stand-alone configuration.
6	The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number.	Y	The FCC ID is permanently affixed to the radio module.
7	The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	Y	The radio module complies with all applicable FCC rules. Detailed instructions for maintaining compliance are given in the host integration instructions.
8	The modular transmitter must comply with any applicable RF exposure requirements in its final configuration.	Y	The radio module complies with all applicable RF exposure requirements in its final configuration.

Please contact me if you have additional questions. Your attention to this matter is greatly appreciated.
