Federal Communications Commission

To Whom It May Concern:

On December 6th, my company have applied for the FCC ID :QCI-IDNMOD1 ,Product name: SMART QX/V4 NFC the Module model Number: IDNMOD1 .and Our products the product has never been marketed or sold in the United States or anywhere else in the world.

Due to commercial reasons, we would like to upgrade the models of all the host device in the certificate and report:

So we re-provided the related technical information that might have impact on the compliance of the product to FCC rule.

After the change is done, we would like to proceed again with the product compliance evaluation and fill for the product certification under the same FCC ID.

For commercial reasons, we choose not to do permissive change, and instead, we would like to apply for dismissal.

We, the undersigned, hereby authorize TIMCO on our behalf, to apply to the Federal Communications Commission on our equipment. Any and all acts carried out by TIMCO on our behalf shall have the same effect as acts of our own.

Sincerely,

Client's signature:

Nicole McMillan
