

PQX-2 Host Labeling / Location

Host product: **SMART QX/RX Series Pen**

Model: **PQX-2**

BLE Radio Model: **PQXMOD1**

FCC ID: QCI-PQXMOD1

IC: 4302A-PQXMOD1

Radio identifiers will be applied to host product packaging and user documentation that ships with the host product.

PQX-2 is an accessory used with SMART QX/RX Series IFP displays.

The IFP displays will utilize e-labeling to identify the SMART QX/RX Series Pen, Model: PQX-2 and include the following statements:

Contains FCC ID: QCI-PQXMOD1

Contains IC: 4302A-PQXMOD1

The following examples demonstrate the implementation of radio identification for the host product packaging, user documentation, and SMART QX/RX Series IFP display e-labeling:

Note

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Radiation exposure statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.
