Attention: Reviewing Engineer

RE: Confidentiality Request for Echo DRM (FCC ID: QCJECHO108)

To Whom It May Concern:

This letter serves as an official request for confidentiality under FCC Rule Section 0.459. Our statement of reasons is as follows:

- 1) We have requested that the schematics and bill of materials, which have all been marked "Proprietary", be withheld from public view. These documents contain design information that is company trade secret.
- 2) The information contained on the schematics and block diagram is not provided to third parties unless non-disclosure or license agreements have been established with MSSl. Furthermore, the information in the figures cannot be obtained without destroying the functionality of the unit. Specifically, prying off the shields from the circuit card will destroy the functionality of the unit.

If you have any questions, please contact me if there is any more information you require.

Sincerely,

Charles A. Derrow  
Multispectral Solutions, Inc.
