RE: Applicant: Airaya, Corp., FCC ID: QDE-GRID-3X3, Request for supercede of test report and External Photo exhibits

Per Airaya's request, they would like to use their internal reference number for all the listed antenna instead of its original manufacturer model number. , therefore, we are asking to kindly replace the test report and external photos with revised copies.

You can find the changes on page 20 of the revised test report, page 9 & 10 of the revised external photos.

Thank you,

Annie Jiang
