Declaration letter

The output power setting of EUT is set in the factory and followed the max level in below. There is no tune up procedure except factory default setting:

11b: 11dBm (MAX.)
11g: 12 dBm (MAX.)
11n: 12 dBM (MAX.)

Sincerely yours,

A handwritten signature in blue ink that reads "Kim Woo Suk". The signature is written in a cursive style and is positioned on a light blue rectangular background.
