## Safety Precautions

Please read and ensure you have fully understood the following safety guidelines before using the product. The safety guidelines describe important details regarding your safety and are classified into "Danger," "Warning," and "Caution." The company cannot be held liable for accidents and product damage due to non-observance of these safety precautions.

 DANGER	Serious injury or death can result if not handled as directed.
 WARNING	Serious / minor injury or product / property damage can result if not handled as directed.
 CAUTION	Minor damage can result if not handled as directed.

**⚠ DANGER**

Serious injury or death can result if not handled as directed.

Use only the AC adapter included. Using any other AC adapter may cause fire or electric shock.

Connect the AC Adapter only to rated power outlet types as described in the user manual. Connecting to other types may cause fire or electric shock.

Do not touch the AC adapter with wet hands. If the inside or outside of the product get wet, an electric shock may result.

Do not place heavy objects on the AC adapter cable. Do not score, bend, twist, or pull the AC adapter cable. A damaged AC adapter cable may cause fire or electric shock.

Do not repair, disassemble, or modify the product. Using the product under such conditions may cause fire or electric shock.

To avoid a high probability of explosion or malfunction, do not dry the product with a heater or microwave oven when the product is wet (whether with water or some other liquid).

Promptly turn the power of the product off and disconnect the AC connector from the power outlet if the product produces smoke, smells, or unusual sounds. Using the product in abnormal conditions may cause fire or electric shock.

Do not drop the product, or subject it to strong impact or severe vibration, to avoid damage. Promptly turn the power of the product off and disconnect from the power outlet if the product is damaged. (Remove the AC adapter if the product was being charged). Using the product in abnormal conditions may cause fire or electric shock. Contact customer support.

Do not allow the earphones to get trapped in a car or train door. It can be extremely dangerous.

Do not use earphones or headphones while driving a vehicle, motorcycle, or riding a bicycle. Not only is it dangerous, but also illegal in some jurisdictions. Do not use the earphones or headphones while using a pedestrian crossing or in other dangerous areas, to avoid traffic accidents or other dangers.

Promptly turn the power of the product off and disconnect the AC connector from the power outlet during electrical storms to avoid fire or electric shock.

Turn off and unplug the power when it thunders or lightening flashes as quickly as possible. It could result in a fire or electric shock.

Turn off the power during an electrical storm to avoid damage to the product and disconnect the AC connector from the power outlet if foreign substances or liquid get into the product.

Keep the product and AC adapter away from children to avoid electric shock or exposure to electrical fields.
