Authorization and Evaluation Division  
7435 Oakland Mills Road  
Columbia, MD 21046

Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: QDS-BRCM1019  
2.4GHz operation  
Applicant: Broadcom Corporation

Dear Examiner,

This letter confirms that the device with FCC ID: QDS-BRCM1019 operates on Ch 1-11 in the US. Operation is and will be limited to band 2412 - 2462 MHz (center frequency). Ch 12 and 13 are not used on this card in the US.

This application reduces the frequency range of operation previously granted of 2412 - 2472 MHz (channels 1 through 13) by dropping channels 12 and 13, giving an operating frequency range of 2412 - 2462 MHz. The product has never been shipped with and will not operate on channels 12 and 13 in the US.

All the approved 5GHz channels are still applicable.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Dan Lawless".
