**Cc:** Chris Harvey; Claire Hoque  
**Subject:** Broadcom Corporation, FCC ID: QDS-BRCM1027, Assessment NO.: AN08T7477/AN08T7478/AN08T7479, Notice#1

Dear Thu Chan,

You are listed as the Technical Contact for the above referenced TCB application. The following item(s) need(s) to be resolved before the review can be continued:

1. The FCC has recently provided guidance on authorized signatories for cover letters submitted with equipment authorization applications. The FCC policy can be found at:

[http://fjallfoss.fcc.gov/prod/oet/forms/blobs/IDBretrieve.cgi?attachment\\_id=24340](http://fjallfoss.fcc.gov/prod/oet/forms/blobs/IDBretrieve.cgi?attachment_id=24340)

"The "authorized" individual, when referred to in relation to both an FCC and TCB Form 731 Application for Equipment Authorization, is identified as either the applicant / grantee contact of record in the Grantee Code data base, or the agent authorized by the applicant / grantee. Only an authorized individual may "sign" the Form 731, and only an authorized individual may request confidentiality - i.e. the confidentiality letter must be signed by an authorized individual and uploaded into the Cover Letters exhibit folder."

The Letter of Authorization submitted authorizes the Company CCS to be an agent, but the new FCC policy requires the letter to authorize an(a) individual(s) at a company. Please update the letter using the new format (provided under separate cover) and include Claire Hoque and Thu Chan of CCS as your authorized agents.

<answer>FCC agent authorization letter amendment is attached. I will sign 731 form(which is updated in CCS website).

2. The Confidentiality Request Letter includes reference to several exhibits that have not been, and are not required to be filed with this C2PC application. The only exhibits submitted in this application that are listed on the current Confidentiality request letter are the SAR photos and Host photos, which are both in Short-Term Confidentiality section. The FCC requires that only exhibits submitted be referenced in the letters. Please update the Confidentiality Request letter to remove the following exhibits:

Schematics

Block Diagram

Theory of Operation

Antenna Specification (unless it will be submitted) Internal Photos Please update the Confidentiality request letter accordingly.

<answer>Revised Confidentiality Request Letter is attached.

3. Please confirm that the antennas used in this application are the same as the original approval, or otherwise justify the inclusion of these antennas in this application.

<answer>The antennas in this portable application are the same type as approved in the mobile application.

There is no increase in the antenna gain.

4. Please provide the support documentation for the SAR test report, such as calibration (probes and dipoles), validation data and SAR plots.

<answer>They were submitted earlier.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
