Re: Technical Justification Letter Pertaining to FCC ID: QDS-BRCM1048

Gentlemen:

This is to confirm that Lenovo will be installing the identical approved 802.11g/draft802.11n Wireless LAN + Bluetooth PCI-E Mini Card, Model Name: BCM943225HMB in a different portable host. SAR evaluation has been completed for this new portable host and we are requesting for a Class II Permissive Change filling. There is no change on the module hardware and the antennas used in this portable host are the same antenna type as the previous with less gain by comparing to the certified antenna included in the original modular approval, and output power remains unchanged; therefore EMC tests are not performed.

Sincerely,

A handwritten signature in black ink, appearing to read "DL", written over a horizontal line.
