Dear Examiner,

This is to request a Class II permissive change for FCC ID: QDS-BRCM1068. There is no hardware or electrical modification made to the applying modular transmitter itself.

The major changes filed under this application:

Change #1 Establishing approval for use in stand-alone portable exposure conditions per KDB 616217 D04 v01, Sec3.2 Module Approach. The module is tested following procedures in KDB 447498 at 5mm separation distance. The highest measured SAR value is 0.703W/kg.

Installation and operating requirements, detailing the restrictions, separation distances and antenna requirement for the modular conditions covered by the equipment authorization, are documented in the instructions provided to OEM integrators.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

A handwritten signature in black ink, appearing to read "DL", written over a horizontal line. The signature is fluid and cursive in style.
