Federal Communications Commission
Authorization and Evaluation Division
1435 Oakland Mills Road
Columbia, MD 21046

Date: **July 17, 2013**

SUBJECT: FCC ID: QDS-BRCM1068

Declaration

The intension of this application is to enable the modular certified FCC ID: QDS-BRCM1068 to be integrated in the host system Laptop PC, Model Name:CT15, Trade Name:VIZIO.

To lower the RF exposure level, we have intentionally reduced the output power to the tested level as shown in this class II permissive change SAR report. The output level is locked to new level by factory secured firmware and end-users cannot change the power level to exceed the tested level in this filing.

Should you have any enquiries or comment, please have my best attention.

Sincerely Yours,

Daniel Lawless
