RE: FCC Class II Permissive change for FCC ID: QDS-BRCM1078
(Original Grant Date: 11/6/2013) Applicant: Broadcom Corporation

Dear Examiner,

This is to request a Class II permissive change for FCC ID: QDS-BRCM1078, to include additional variants of the same design.

Major changes filed under this application are:

1. BCM20732S - base part; BCM20736S – Adds Simultaneous Master Slave and A4WP to BCM20732S; BCM20737S – Adds RSA Security and NFC bridging capabilities to the BCM20736S.
2. Add additional host Broadcom BCM9WICED_SENSE to the limited modular approval.

Testing has shown that these changes do not affect RF parameters, such as output power, frequencies and modulations supported.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'DL', is written over a horizontal line.
