After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Please comment on if the 2 devices are internally identical. Note that photographs of the back of the board in the second model were not provided.
- 2) Please note that the DoC labeling phrase should state "Tested to Comply with FCC Standards". The phrase provided was not correct. Please correct the labels provided.
- 3) The updated manual did not appear to provide the information below on the same page as the FCC statements as given in 2.1077. Please provide an updated manual.
