

Federal Communications Commission  
7435 Oakland Mills Road  
Columbia MD 21046

Subject: Request for Confidentiality

FCC ID: QFS001-10037200

To Whom It May Concern:

Pursuant to the provisions of Sections 0.457 and 0.459 of the Commission's rules (47 CFR §§ 0.457, 0.459), we are requesting the Commission to withhold the following attachments as confidential document from public disclosure indefinitely.

Schematic Diagram  
Block Diagram  
Theory of Operation  
Internal Photos  
Parts List

Above mentioned document contains detailed system and equipment description are considered as proprietary information in operation of the equipment. The public disclosure of above documents might be harmful to our company and would give competitor an unfair advantage in the market.

In order to secure our internal layout and schematic, Dynerics has employed three layers of industrial-solvent to fasteners so that the board cannot be tampered with or obtained. In addition, Dynerics, the manufacturer, is currently the only authorized party for repair and emplacement of the unit, which is mounted on a pole at least 50 feet above ground, making tampering or taking apart the unit very burdensome for a 3<sup>rd</sup> party.

It is our understanding that all measurement test reports, FCC ID label format and correspondent during certification review process cannot be granted as confidential documents and those information will be available for public review once the grant of equipment authorization is issued.

Best Regards

A handwritten signature in cursive script that reads 'Sallie Patterson'. The signature is written in black ink and is positioned above a horizontal line.
