

MPE / RF exposure information request:

Product Description:	nano3G S16 Access Point (Bands 2 & 5)
Model number:	243B and 243BA

Frequency Band 2:

Antenna length (cm):	N/A	Centimetres (cm)
Frequency range:		
Bottom frequency:	1932.4	MHz
Middle frequency:	1960.0	MHz
Top frequency:	1987.6	MHz
Maximum power (input to the antenna):	0.1	W
Antenna gain (or maximum gain allowed):	0	dBi
Separation distance from antenna (if greater than 20cm)	N/A	cm (if greater than 20cm, distance will be calculated at 20cm)
Duty Cycle:	100	%

Frequency Band 5:

Antenna length (cm):	N/A	Centimetres (cm)
Frequency range:		
Bottom frequency:	871.4	MHz
Middle frequency:	881.6	MHz
Top frequency:	891.6	MHz
Maximum power (input to the antenna):	0.1	W
Antenna gain (or maximum gain allowed):	0	dBi
Separation distance from antenna (if greater than 20cm)	N/A	cm (if greater than 20cm, distance will be calculated at 20cm)
Duty Cycle:	100	%
