To Whom it May Concern,

This letter certifies that the Technalogix TXUD-150 digital TV transmitter is in compliance with all of the standards of Part 73.8000. In addition, the unit is a transmitter and not a translator, hence it has no demodulation capabilities that need to be met for Part 73.9000 through Part 73.9008, assuming we are interpreting the documentation correctly. Should require any further information, do not hesitate to contact us:
