Re: FCC ID: QHC-KVEVDOZ41

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron, for evaluation of their model 570973-001 for certification under FCC Part 15.247 for limited modular approval.

The Itron 570973-001 (Kv2c-AMPZ) is an electricity metering module used in the GE Kv2c EPS meter platform in forms 2S, 9S, 12S, 16S, and 45S. The 570973-001 (Kv2c-AMPZ) includes (1) HAN 802.15.4 2.4 GHz radio for home automation interface with Zigbee compliant devices and an on-board Sierra Wireless CDMA modem SL5011 (FCC ID: N7NSL5011 / IC: 2417C-SL5011). The Sierra Wireless CDMA modem SL5011 is modular approved and not covered under the scope of this application.

The 570973-001 was tested in full to the requirements of the aforementioned rules and was found to be in compliance. The 570973-001 was also evaluated for intermodulation products due to the simultaneous transmission and found to be compliant.

Sincerely,
