To whom it may concern:

The enclosed documents constitute a formal submittal and application for Equipment Authorization for the MicroTransponder, Inc. implantable neurostimulator. This device is intended to stimulate the vagus nerve through one bipolar lead. It is being submitted pursuant to the following rules:

Part 95 of FCC Rules (MedRadio)

The implantable neurostimulator communicates with a programmer which is being submitted separately.

Elliott Laboratories, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is included with the application.

If there are any questions or if further information is needed, please contact Elliott Laboratories for assistance.

Sincerely,

David W. Bare
Chief Engineer
