Report format prepared by the Information Technology Industry Council (ITI) ESC-5 and reviewed by FCC staff in 1994

Justification of the addition of new antennas to be used with the FCC ID QHKGMEOL400CHAN2

Two antennas dedicated to Textile Rental business have been added to our offer.

- The Mat Antenna is specific and unique as it is fitted into a machine with a known distance to metallic parts. The antenna is tuned to 50 Ohms in this specific environment; no other antenna can be used.
- The Aero R200/300 Antenna is specific to linen detection on a specific Garment Hanging System. Its unique shape and dimensions is best suited to this particular application, detecting a small Ario 370DL tag patched onto the garment.

Franck D'ANNUNZIO
