

The pictures are taken upon request from TUV SUD – from the following positions: *Top View (already supplied), Top View with manikin cover on, Bottom View, Front View, Back View, Left Side View, Right Side View.*

Note: a Bottom view picture is impossible since the Little Anne QCPR Sensor is mounted on the Little Anne manikin’s back section with tape/adhesive.

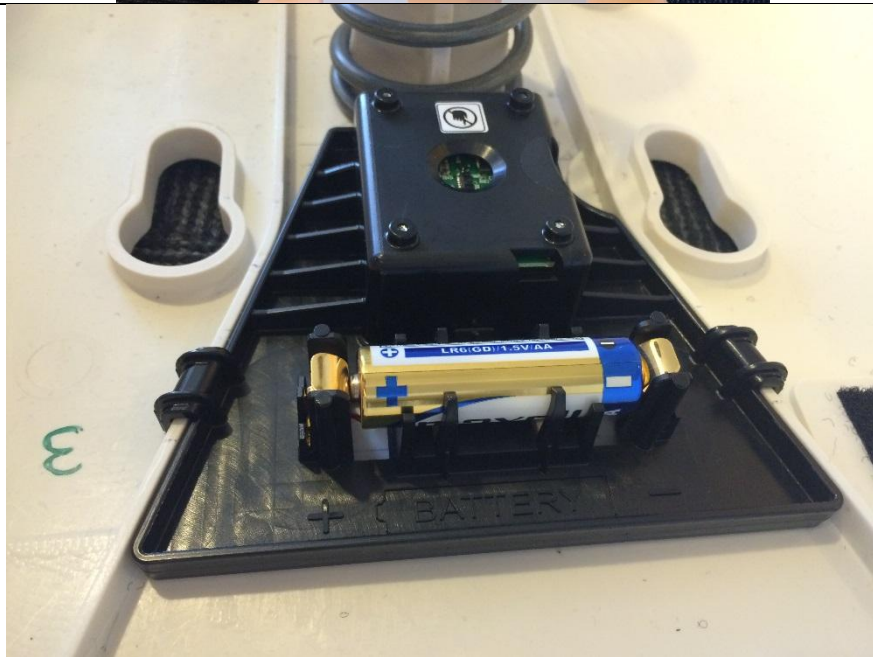

<p><b>Picture 1 and 2</b></p> <p>Little Anne Front and back</p>	
<p><b>Picture 3 and 4</b></p> <p>Little Anne with chest skin open, and Little Anne with chest skin and chest plate open</p>	

**Picture 5**  
Little Anne with chest skin and chest plate open – a closer look at the assembled Little Anne QCPR Sensor

**Picture 6**  
Little Anne QCPR Sensor – “Front view”

**Picture 7 and 8**

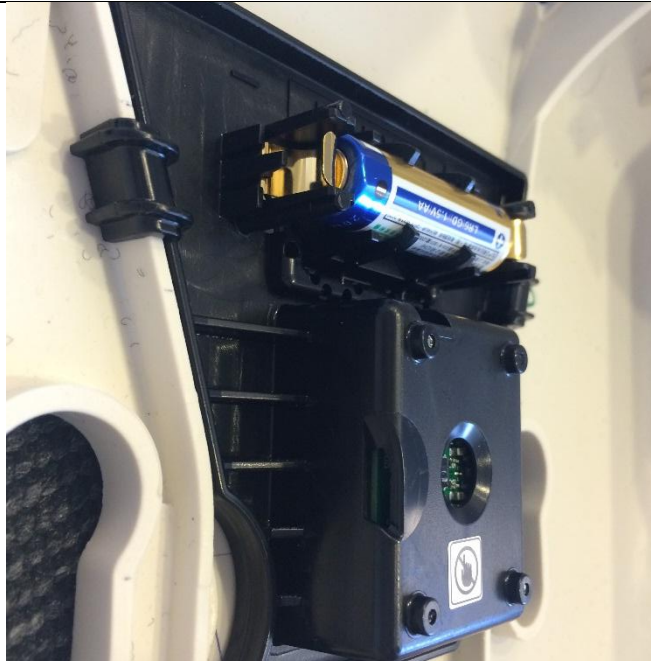

Little Anne QCPR Sensor –  
“Back view”

On picture 8 is the  
spring removed  
for a better view

**Picture 9**

Little Anne QCPR Sensor "left Side View"

**Picture 10**

Little Anne QCPR Sensor "Right Side View"
