Kubus NFC Bluetooth Speaker

Instruction Manual

- 1 x Kubus NFC Bluetooth Speaker
- 1 x Instruction Manual
- 1 x AUX cord
- 1 x Mini-USB cord

FCC ID:QIFB07

Tech Specifications:

- Heavy Bass
- Power Outlet: RMS 2.5W
- Speakers: D40mm [130Hz-20KHz]
- Lithium polymer battery input: 500mAh [DC5V]
- Dimension: 50 x 50 x 51 [mm]
- Material: ABS shell
- Weight: about 95g

Line-in Function:

Slide the switch to "ON", plug in the provided Mini USB jack cable into the "Line-in" port and connect the other end into your selected media device.

Bluetooth Function:

Slide the switch to "ON", after 3 seconds a beep along with the flashing blue LED indicating it has entered bluetooth pairing mode.

In your mobile device's bluetooth settings select the Kubus to pair the two devices.

Once the devices have been paired you are ready to use the speaker for all your audio needs. The audio volume and control can be managed from your selected mobile device.

After the mobile device and speaker have surpassed the effective range (>10M) it will automatically disconnect. To reconnect bring the devices within the effective range and reselect the bluetooth device and connect.

NFC Function:

If your mobile device supports Near Field Communication (NFC) technology, hold your mobile device to touch the bottom of the speaker, this is where the chip is located.

Low Battery Indication:

When the battery is low, the Kubus speaker will beep every 30 seconds while playing audio. When the speaker loses all charge the device will shut off automatically.

Recharging the battery

Use the provided Mini-USB cable. Plug the cable into the Mini-USB input port. Use the opposite end of the cable to plug into a USB port of a computer, AC wall adapter, etc.

While charging the speaker the LED indicator will light up red, and when fully charged the LED indicator will stop lighting up.

It takes 2-3 hours to charge the speaker completely. Do not charge the Kubus speaker and use it at the same time. The speaker, when fully charged and used correctly, has a play-time of 5-8 hours.

MADE IN CHINA

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
